Subject Index

Abscess
  Recent diagnostic experience with subdural empyema, 764
  Susceptibility of brain and skin to bacterial challenge, 772
Achondroplasia
  Spinal neurological complications of achondroplasia. Results of surgical treatment, 463
Acoustic nerve tumor
  Acoustic neurilemmoma. Clinicoanatomical study of 103 patients, 28
  Translabyrinthine and transtentorial removal of acoustic nerve tumors. Results in 150 cases, 210
Air embolism
  A new catheter for detection and treatment of venous air embolism. Technical note, 595
β-aminopropionitrile
  Experimental intracranial aneurysms in rats. A gross and microscopic study, 494
Amputation pain
  Pain reduction in amputees by long-term spinal cord stimulation. Long-term follow-up study over 5 years, 346
Anastomosis
  Experimental model for maxillary artery to middle cerebral artery anastomosis in dogs. Technical note, 591
  Fatal subdural bleeding following superficial temporal-middle cerebral artery anastomosis. Case report, 392
Anatomical study
  Microsurgical anatomy of the choroidal arteries. Fourth ventricle and cerebellopontine angles, 504
  Microsurgical anatomy of the choroidal arteries: Lateral and third ventricles, 165
  Microvascular relations of the trigeminal nerve. An anatomical study with clinical correlation, 381
Aneurysm
  Anterior communicating artery aneurysms with associated anomalies, 162
  Cerebral vasospasm following aneurysm rupture. A protocol for therapy and prophylaxis, 149
  The critical importance of $PaCO_2$ during intracranial aneurysm surgery. Case report, 426
  Direct percutaneous cerebral angiography in neurosurgical practice, 525
  Experimental intracranial aneurysms in rats. A gross and microscopic study, 494
  Familial intracranial aneurysms. Six cases among 13 siblings, 501
  Intermittent appearance of a ruptured cerebral aneurysm on sequential angiograms. Case report, 263
  Preoperative treatment of ruptured intracranial aneurysms with tranexamic acid and monitoring of fibrinolytic activity, 453
  Some examples of balloon technology in neurosurgery, 321
  Stereotaxic occlusion of 22 consecutive anterior communicating artery aneurysms, 790
  Surgery of posterior communicating artery aneurysms that enlarge after common carotid ligation. Report of two cases, 116
  Traumatic intracranial aneurysms, 11
  Traumatic intracranial aneurysms. Letter, 875
  Treatment of intracavernous and giant carotid aneurysms by combined internal carotid ligation and extra- to intracranial bypass, 1
Angiography
  Acute renal failure following cerebral angiography and infusion computerized tomography. Case report, 111
  Atheromatous pseudo-occlusion of the internal carotid artery, 782
  Direct percutaneous cerebral angiography in neurosurgical practice, 525
  Indications for angiography in the preoperative evaluation of patients with prolactin-secreting pituitary adenomas, 378
  Interhemispheric cyst of neuroepithelial origin in association with partial agenesis of the corpus callosum. Case report and review of the literature, 399
  Intermittent appearance of a ruptured cerebral aneurysm on sequential angiograms. Case report, 263
  A new catheter for detection and treatment of venous air embolism. Technical note, 595
  Recent diagnostic experience with subdural empyema, 764
Angioma
  Identification of a brain stone as calcified hemangioma. Case report, 862
Anterior communicating artery aneurysm
  Anterior communicating artery aneurysms with associated anomalies, 162
Anterior fontanel
  Congenital inclusion dermoid cyst located over the region of the anterior fontanel in adult Nigerians. Report of two cases, 724
Antibiotic therapy
  Cerebrospinal fluid antibiotic levels during treatment of shunt infections, 41
  Nonoperative treatment of brain abscesses in selected high-risk patients, 217
Anticonvulsant drug
  Antiepileptic drug distribution in cerebral cortex, Ammon's horn, and amygdala in man, 686
  Posttraumatic epilepsy: phenytoin prophylaxis. Letters, 291
Antifibrinolytic activity
  Preoperative treatment of ruptured intracranial aneurysms with tranexamic acid and monitoring of fibrinolytic activity, 453
Antigen
  An evaluation of nerve repair with nerve allografts in normal and immunologically tolerant rats, 557
  Failure to detect papovavirus-associated T antigens in human brain tumor cells by anticomplement immunofluorescence, 367
Apparatus
  Drill stop for twist drill. Technical note, 599
  Irrigating sucker dissector. Technical note, 736
  A modified drill guide for the anterior cervical fusion (Cloward) procedure. Technical note, 284
  A new catheter for detection and treatment of venous air embolism. Technical note, 595
Arachnoiditis
  Thalamic stimulation for neuropathic pain, 486
Arteriovenous fistula
  Some examples of balloon technology in neurosurgery, 321
  Traumatic intracranial aneurysms, 11
Arteriovenous malformation
  Dual cerebral and meningeal supply to giant arteriovenous malformations of the posterior cerebral hemisphere, 153

Index

Identification of a brain stone as calcified hemangioma. Case report, 862
Third ventricular choroid plexus arteriovenous malformation simulating a colloid cyst. Case report, 246
Treatment of cerebral arteriovenous malformations. A combined neurosurgical and neuroradiological approach, 705
Aspergillus fumigatus
Carotid-cavernous sinus thrombosis caused by *Aspergillus fumigatus*. Case report, 120
Astrocytoma
Cerebellar astrocytoma invading the musculature and soft tissues of the neck. Case report, 414
Astroprotein
Levels of astroprotein (an astrocyte-specific cerebroprotein) in cerebrospinal fluid of patients with brain tumors. An attempt at immunochemical diagnosis of gliomas, 229
Atlanto-occipital articulation
Traumatic dislocation of the atlanto-occipital articulation (AOA) with short-term survival. With a radiographic method of measuring the AOA, 541
Auditory responses
Acute intracranial hypertension and auditory brain-stem responses. Part 3: The effects of posterior fossa mass lesions on brain-stem function, 351
Autonomic nervous system
Cardiac arrhythmias accompanying acute compression of the spinal cord, 52
The response of feline spinal pial arterioles to norepinephrine, 60
Autoradiography
Comparison of hydrogen clearance and ^{14}C-antipyrine autoradiography in the measurement of spinal cord blood flow after severe impact injury, 801
Autoregulation
Relationship of cerebral blood flow to cardiac output, mean arterial pressure, blood volume, and alpha and beta blockade in cats, 745

Balloon
Some examples of balloon technology in neurosurgery, 321
Barbiturate
Experimental brain injury in the dog. The pharmacological effects of pentobarbital and sodium nitroprusside, 189
BCNU
Effect of surgery on BCNU chemotherapy in a rat brain tumor model, 529
Beta-blockade
A clinicopathological study of patients following a subarachnoid hemorrhage, 295
Blindness
Bilateral cortical blindness associated with carotid stenosis in a patient with a persistent trigeminal artery. Case report, 709
Blood flow
Spinal cord blood flow in experimental transient traumatic paraplegia, 335
Blood patch
Lumbosacral meningismus complicating subdural injection of "blood patch." Case report, 849
Bone bleeding
Control of bone bleeding during Cloward procedure. Technical note, 138
Control of bone bleeding. Letters, 604

Brachial plexus injury
Acute spinal cord compression by subarachnoid and subdural hematoma occurring in association with brachial plexus avulsion. Case report, 410
Retrospective analysis of 22 patients with chronic pain treated by peripheral nerve stimulation, 482
Thalamic stimulation for neuropathic pain, 486
Brain abscess
Nonoperative treatment of brain abscesses in selected high-risk patients, 217
Susceptibility of brain and skin to bacterial challenge, 772
Thorotrast-induced meningioma. Case report, 834
Tuberculous brain abscess. Case report, 419
Brain abscess model
Brain abscess model. Letters, 603
Brain concussion
Local cerebral blood volume in head-injured patients. Determination by emission computed tomography of ^{99m}Tc-labeled red cells, 309
Brain stem
Acute intracranial hypertension and auditory brain-stem responses. Part 3: The effects of posterior fossa mass lesions on brain-stem function, 351
Brain tumor
Craniopharyngioma surgery in children. Letters, 439
Development of a computerized microstereotaxic method for the localization and removal of minute CNS lesions under direct 3-D vision. Technical report, 21
Direct percutaneous cerebral angiography in neurosurgical practice, 525
The effect of phenobarbital on the toxicity and tumoricidal activity of CCNU in a murine brain tumor model, 359
Effect of surgery on BCNU chemotherapy in a rat brain tumor model, 529

Failure to detect papovavirus-associated T antigens in human brain tumor cells by anticomplement immunofluorescence, 367
Levels of astroprotein (an astrocyte-specific cerebroprotein) in cerebrospinal fluid of patients with brain tumors. An attempt at immunochemical diagnosis of gliomas, 229
Management of the unresectable cystic craniopharyngioma by aspiration through an Ommaya reservoir drainage system, 36
Primary intracranial epidermoid carcinoma. Letter, 440
Prognostic significance of the pretreatment CT scan on time to progression for patients with malignant gliomas, 642
Systemic Weber-Christian disease presenting as an intracranial mass lesion. Case report, 134
Bypass
Treatment of intracavernous and giant carotid aneurysms by combined internal carotid ligation and extra- to intracranial bypass, 1

Calcium
Cervical radiculomyelopathy caused by deposition of calcium pyrophosphate dihydrate crystal in the ligamenta flava. Case report, 279
Carbohydrate substrates
Regional cortical metabolism in focal ischemia, 755
Carcinoma
Primary intracranial epidermoid carcinoma. Letter, 440
Cardiac arrest
Plasmacytoma of the clivus presenting with an unusual combination of symptoms. Case report, 857
Cardiac arrhythmia
Cardiac arrhythmias accompanying acute compression of the spinal cord, 52
Cardiac output
Relationship of cerebral blood flow to cardiac output, mean arterial pressure, blood volume, and alpha and beta blockade in cats, 745
Carotid artery
Atheromatous pseudo-occlusion of the internal carotid artery, 782
Some examples of balloon technology in neurosurgery, 321
Carotid ligation
Surgery of posterior communicating artery aneurysms that enlarge after common carotid ligation. Report of two cases, 116
Treatment of intracavernous and giant carotid aneurysms by combined internal carotid ligation and extra- to intracranial bypass, 1
Catheter
A new catheter for detection and treatment of venous air embolism. Technical note, 595
Causalgia
Retrospective analysis of 22 patients with chronic pain treated by peripheral nerve stimulation, 482
Thalamic stimulation for neuropathic pain, 486
Cavernous angioma
Cystic cerebral cavernous angioma with dense calcification. Case report, 259
Cavernous sinus
Carotid-cavernous sinus thrombosis caused by *Aspergillus fumigatus*. Case report, 120
Implications of very high serum prolactin levels associated with pituitary tumors, 226
Treatment of intracavernous and giant carotid aneurysms by combined internal carotid ligation and extra- to intracranial bypass, 1
CCNU
The effect of phenobarbital on the toxicity and tumoricidal activity of CCNU in a murine brain tumor model, 359
Cellular membrane potential
Cortical cellular response in acute subarachnoid hemorrhage, 456
Cerebellar stimulation
Cerebellar stimulation for cerebral palsy, 648
Chronic cerebellar stimulation. Letters, 603
Cerebellopontine angle
Microsurgical anatomy of the choroidal arteries. Fourth ventricle and cerebellopontine angles, 504
Cerebral aneurysm
Anterior communicating artery aneurysms with associated anomalies, 162
Surgery of posterior communicating artery aneurysms that enlarge after common carotid ligation. Report of two cases, 116
Treatment of intracavernous and giant carotid aneurysms by combined internal carotid ligation and extra- to intracranial bypass, 1
Cerebral blood flow
Relationship of cerebral blood flow to cardiac output, mean arterial pressure, blood volume, and alpha and beta blockade in cats, 745
Responses to experimental subarachnoid hemorrhage in the spontaneously breathing primate, 302
Cerebral calcification
Cystic cerebral cavernous angioma with dense calcification. Case report, 259
Identification of a brain stone as calcified hemangioma. Case report, 862
Cerebral cyst
Cerebral cyst infection with *Micrococcus sedentarius*. Case report, 126
Cerebral palsy
Cerebellar stimulation for cerebral palsy, 648
Cerebral perfusion
Responses to experimental subarachnoid hemorrhage in the spontaneously breathing primate, 302
Cerebral swelling
The role of craniectomy in the treatment of chronic subdural hematomas, 776
Cerebral tumor
Cerebral convexity epidermoid tumor subsequent to multiple percutaneous subdural aspirations. Case report, 574
Supratentorial hemangioblastoma in a child. Case report, 578
Cerebral vascular accident
Cranial asymmetry secondary to unilateral hemispheric damage during late childhood. Case report, 423
Cerebral ventricles
Microsurgical anatomy of the choroidal arteries. Fourth ventricle and cerebellopontine angles, 504
Microsurgical anatomy of the choroidal arteries: Lateral and third ventricles, 165
Cerebrospinal fluid
Cerebrospinal fluid antibiotic levels during treatment of shunt infections, 41
A dynamic pressure study of spontaneous CSF rhinorrhea in the empty sella syndrome. Case report, 103
Homovanillic acid and 5-hydroxyindoleacetic acid in the ventricular CSF of comatose patients with obstructive hydrocephalus, 635
Parenchymal cerebrospinal fluid extravasation as a complication of computerized tomography. Case report, 113
Preoperative treatment of ruptured intracranial aneurysms with tranexamic acid and monitoring of fibrinolytic activity, 453
Servo-controlled lumbar infusions in children. A quantitative approach to the problem of arrested hydrocephalus, 87
Cervical fusion
Control of bone bleeding during Cloward procedure. Technical note, 138
Control of bone bleeding. Letters, 604
A modified drill guide for the anterior cervical fusion (Cloward) procedure. Technical note, 284
Cervical myelopathy
Stenosis and cervical myelopathy. Letters, 290
Cervical radiculomyelopathy
Cervical radiculomyelopathy caused by deposition of calcium

pyrophosphate dihydrate crystal in the ligamenta flava. Case report, 279
Chemotherapy
Carotid-cavernous sinus thrombosis caused by *Aspergillus fumigatus*. Case report, 120
The effect of phenobarbital on the toxicity and tumoricidal activity of CCNU in a murine brain tumor model, 359
Effect of surgery on BCNU chemotherapy in a rat brain tumor model, 529
Chiasmal compression
Fifth ventricle with bitemporal hemianopsia. Case report, 276
Chondrocalcinosis
Cervical radiculomyelopathy caused by deposition of calcium pyrophosphate dihydrate crystal in the ligamenta flava. Case report, 279
Choroid plexus
Malignant choroid plexus papilloma with extraneural metastasis. Case report, 251
Microsurgical anatomy of the choroidal arteries. Fourth ventricle and cerebellopontine angles, 504
Microsurgical anatomy of the choroidal arteries: Lateral and third ventricles, 165
Third ventricular choroid plexus arteriovenous malformation simulating a colloid cyst. Case report, 246
Choroidal arteries
Microsurgical anatomy of the choroidal arteries. Fourth ventricle and cerebellopontine angles, 504
Microsurgical anatomy of the choroidal arteries: Lateral and third ventricles, 165
Cisternography
Diagnosis of empty sella syndrome. Letters, 874
Diagnosis of empty sella syndrome using Amipaque cisternography combined with computerized tomography, 99
Clivus
Plasmacytoma of the clivus presenting with an unusual combination of symptoms. Case report, 857
Cloward procedure
Control of bone bleeding during Cloward procedure. Technical note, 138
A modified drill guide for the anterior cervical fusion (Cloward) procedure. Technical note, 284
Colloid cyst
Neurogenic pulmonary edema associated with a colloid cyst in the third ventricle. Case report, 395
Third ventricular choroid plexus arteriovenous malformation simulating a colloid cyst. Case report, 246
Coma
Homovanillic acid and 5-hydroxyindoleacetic acid in the ventricular CSF of comatose patients with obstructive hydrocephalus, 635
Prolonged posttraumatic unconsciousness. Therapeutic assets and liabilities, 625
Computerized tomography
Acute renal failure following cerebral angiography and infusion computerized tomography. Case report, 111
Calcified herniated thoracic disc diagnosed by computerized tomography. Case report, 722
Diagnosis of empty sella syndrome. Letters, 874
Diagnosis of empty sella syndrome using Amipaque cisternography combined with computerized tomography, 99
Interhemispheric cyst of neuroepithelial origin in association with partial agenesis of the corpus callosum. Case report and review of the literature, 399
Intracranial lipoma. Diagnostic and therapeutic considerations, 234
Intracranial subdural hematoma following lumbar myelography. Case report, 256
Isodense subdural hematoma presenting with paraparesis. Case report, 712
Neurological course and correlated computerized tomography findings after severe closed head injury, 611
Nonoperative treatment of brain abscesses in selected high-risk patients, 217
Parenchymal cerebrospinal fluid extravasation as a complication of computerized tomography. Case report, 113
Prognostic significance of the pretreatment CT scan on time to progression for patients with malignant gliomas, 642
Recent diagnostic experience with subdural empyema, 764
A simple, inexpensive technique for accurate mass localization by computerized tomography. Technical note, 733
Spinal neurological complications of achondroplasia. Results of surgical treatment, 463
Stereotaxic computerized tomography with a GE 8800 scanner, 794
Supratentorial hemangioblastoma in a child. Case report, 578
Third ventricular choroid plexus arteriovenous malformation simulating a colloid cyst. Case report, 246
Computerized z-axis
Development of a computerized microstereotaxic method for the localization and removal of minute CNS lesions under direct 3-D vision. Technical report, 21
Congenital cyst
Congenital inclusion dermoid cyst located over the region of the anterior fontanel in adult Nigerians. Report of two cases, 724
Congenital tumor
Cystic meningioma in a 10-month-old infant. Case report, 829
Recurrent chemical meningitis due to an intraspinal cystic teratoma. Case report, 715
Continuing education
The foundation of excellence is knowledge: the role of self-assessment programs in continuing education. Letter, 289
Corpus callosum
Anterior communicating artery aneurysms with associated anomalies, 162
Interhemispheric cyst of neuroepithelial origin in association with partial agenesis of the corpus callosum. Case report and review of the literature, 399
Intracranial lipoma. Diagnostic and therapeutic considerations, 234
Cranial nerve palsy
Aberrant regeneration in idiopathic oculomotor nerve palsy. Case report, 854
"Fibrous dysplasia" of the skull with complete unilateral cranial nerve involvement. Case report, 404
Craniectomy
Quadriparesis after craniectomy in sitting position. Letter, 874
The role of craniectomy in the treatment of chronic subdural hematomas, 776
Craniopharyngioma
Craniopharyngioma surgery in children. Letters, 439
Management of the unresectable cystic craniopharyngioma by aspiration through an Ommaya reservoir drainage system, 36
Transsphenoidal microsurgery in the management of craniopharyngioma, 661
Crystal deposition
Cervical radiculomyelopathy caused by deposition of calcium pyrophosphate dihydrate crystal in the ligamenta flava. Case report, 279
Cyanoacrylate
Treatment of cerebral arteriovenous malformations. A combined neurosurgical and neuroradiological approach, 705
Cystic meningioma
Cystic meningioma in a 10-month-old infant. Case report, 829

Dermoid cyst
Congenital inclusion dermoid cyst located over the region of the anterior fontanel in adult Nigerians. Report of two cases, 724
Intracranial lipoma. Diagnostic and therapeutic considerations, 234

Dermoid tumor
Cerebral convexity epidermoid tumor subsequent to multiple percutaneous subdural aspirations. Case report, 574
Dexamethasone therapy
Dexamethasone and severe head injuries. Letters, 436
Diastematomyelia
Histological features of congenital lipomas of the lower spinal canal, 564
Diphtheroid
Diphtheroid infections of cerebrospinal fluid shunts. The changing pattern of shunt infection in Cleveland, 553
Disc surgery
Intervertebral disc surgery. Strategies for patient selection to improve surgical outcome, 818
Disseminated intravascular coagulation
Disseminated intravascular coagulation following cranial trauma. Case report, 266
Dorsal column stimulation
Pain reduction in amputees by long-term spinal cord stimulation. Long-term follow-up study over 5 years, 346
Dorsal horn
Noradrenalin, serotonin, and the dorsal horn, 674
Drill guide
A modified drill guide for the anterior cervical fusion (Cloward) procedure. Technical note, 284
Drill stop
Drill stop for twist drill. Technical note, 599
Drug concentration
Antiepileptic drug distribution in cerebral cortex, Ammon's horn, and amygdala in man, 686

E. coli
Susceptibility of brain and skin to bacterial challenge, 772
Edema
Edema and circulatory disturbance in the spinal cord compressed by epidural neoplasms in rabbits, 203
Experimental brain injury in the dog. The pharmacological effects of pentobarbital and sodium nitroprusside, 189
Neurological course and correlated computerized tomography findings after severe closed head injury, 611
Parenchymal cerebrospinal fluid extravasation as a complication of computerized tomography. Case report, 113
Embolization
Dual cerebral and meningeal supply to giant arteriovenous malformations of the posterior cerebral hemisphere, 153
Treatment of cerebral arteriovenous malformations. A combined neurosurgical and neuroradiological approach, 705
Empty sella syndrome
Diagnosis of empty sella syndrome. Letters, 874
Diagnosis of empty sella syndrome using Amipaque cisternography combined with computerized tomography, 99
A dynamic pressure study of spontaneous CSF rhinorrhea in the empty sella syndrome. Case report, 103
Endarterectomy
Atheromatous pseudo-occlusion of the internal carotid artery, 782
Enzyme therapy
Ineffectiveness of enzyme therapy on regeneration in the transected spinal cord of the rat, 73
Epidermoid tumor
Cerebral convexity epidermoid tumor subsequent to multiple percutaneous subdural aspirations. Case report, 574
Epilepsy
Antiepileptic drug distribution in cerebral cortex, Ammon's horn, and amygdala in man, 686
Cranial asymmetry secondary to unilateral hemispheric damage during late childhood. Case report, 423
Posttraumatic epilepsy: phenytoin prophylaxis. Letters, 291
Evoked potentials
Ineffectiveness of enzyme therapy on regeneration in the transected spinal cord of the rat, 73
Management of the unresectable cystic craniopharyngioma by aspiration through an Ommaya reservoir drainage system, 36
Use of cerebral evoked potentials to evaluate spinal somatosensory function in patients with traumatic and surgical myelopathies, 654
Extracranial-intracranial bypass
Treatment of intracavernous and giant carotid aneurysms by combined internal carotid ligation and extra- to intracranial bypass, 1

Facial nerve
Topical organization of the distal portion of the facial nerve, 671
Translabyrinthine and transtentorial removal of acoustic nerve tumors. Results in 150 cases, 210
Familial aneurysm
Familial intracranial aneurysms. Six cases among 13 siblings, 501
Femoral nerve
The anatomical basis for femoral nerve palsy following iliacus hematoma, 533
Fenestration
Anterior communicating artery aneurysms with associated anomalies, 162
Fibrous dysplasia
"Fibrous dysplasia" of the skull with complete unilateral cranial nerve involvement. Case report, 404
Spontaneous recurrent hemorrhage as an unusual complication of fibrous dysplasia of the skull. Case report, 570
Functional pain
Intervertebral disc surgery. Strategies for patient selection to improve surgical outcome, 818

Galactorrhea
Transsphenoidal microsurgery in the management of craniopharyngioma, 661
Gelfoam
Control of bone bleeding during Cloward procedure. Technical note, 138
Control of bone bleeding. Letters, 604
Giant cell
Villonodular synovitis in the spinal canal. Case report, 846
Giant cell granuloma
Giant cell granuloma involving the pituitary gland. Case report, 584
Glioma
Prognostic significance of the pretreatment CT scan on time to progression for patients with malignant gliomas, 642
Spinal cord glioma after multiple fluoroscopies during artificial pneumothorax treatment of pulmonary tuberculosis. Case report, 838
Glucose
Regional cortical metabolism in focal ischemia, 755
Gout
Cervical radiculomyelopathy caused by deposition of calcium pyrophosphate dihydrate crystal in the ligamenta flava. Case report, 279
Granuloma
Focal histiocytosis X of the parietal lobe. Case report, 431
Giant cell granuloma involving the pituitary gland. Case report, 584

Hand-Schüller-Christian syndrome
Focal histiocytosis X of the parietal lobe. Case report, 431
Head injury
Dexamethasone and severe head injuries. Letters, 436
Disseminated intravascular coagulation following cranial trauma. Case report, 266
Experimental brain injury in the dog. The pharmacological effects of pentobarbital and sodium nitroprusside, 189
Internuclear ophthalmoplegia following head injury. Letters, 438
Isodense subdural hematoma presenting with paraparesis. Case report, 712
Local cerebral blood volume in head-injured patients. Determination by emission computed tomography of ^{99m}Tc-labeled red cells, 309
Motorcycle injuries. Letter, 143
Neurological course and correlated computerized tomography findings after severe closed head injury, 611
Prolonged posttraumatic unconsciousness. Therapeutic assets and liabilities, 625
Pulmonary shunt as a prognostic indicator in head injury. Letters, 436
The role of craniectomy in the treatment of chronic subdural hematomas, 776
Headache
Intracranial subdural hematoma following lumbar myelography. Case report, 256
Lumbosacral meningismus complicating subdural injection of "blood patch." Case report, 849
Hemangioblastoma
Supratentorial hemangioblastoma in a child. Case report, 578
Hematoma
Development of a computerized microstereotaxic method for the localization and removal of minute CNS lesions under direct 3-D vision. Technical report, 21
Intracranial subdural hematoma following lumbar myelography. Case report, 256
Neurological course and correlated computerized tomography findings after severe closed head injury, 611
Hemianopsia
Fifth ventricle with bitemporal hemianopsia. Case report, 276
Hemorrhage
Spontaneous recurrent hemorrhage as an unusual complication of fibrous dysplasia of the skull. Case report, 570
Histiocytosis X
Focal histiocytosis X of the parietal lobe. Case report, 431
Histoplasmoma
Symptomatic cerebral histoplasmoma. Case report, 273
Holography
Holographic interferometry applied to the study of the human skull, 825
Hydrocephalus
Experimental syringomyelia. The relationship between intraventricular and intrasyrinx pressures, 812
Homovanillic acid and 5-hydroxyindoleacetic acid in the ventricular CSF of comatose patients with obstructive hydrocephalus, 635
Idiopathic normal-pressure hydrocephalus. Results of shunting in 62 patients, 371
Intracranial lipoma. Diagnostic and therapeutic considerations, 234
The intracranial pressure in infants, 693
Knotted ventriculoatrial catheter. Case report, 407
Mucormycosis presenting as positional nystagmus and hydrocephalus. Case report, 270
Neurogenic pulmonary edema associated with a colloid cyst in the third ventricle. Case report, 395
Servo-controlled lumbar infusions in children. A quantitative approach to the problem of arrested hydrocephalus, 87
Thermosensitive determination of CSF shunt patency with a pair of small disc thermistors, 700
Hydrogen
Comparison of hydrogen clearance and ^{14}C-antipyrine autoradiography in the measurement of spinal cord blood flow after severe impact injury, 801
Hypertension
A clinicopathological study of patients following a subarachnoid hemorrhage, 295
The role of the sympathetic nervous system in pressor responses induced by spinal injury, 473
Hypocarbia
The critical importance of $PaCO_2$ during intracranial aneurysm surgery. Case report, 426
Hypoglossal nerve
Tapia's syndrome caused by a neurofibroma of the hypoglossal and vagus nerves. Case report, 730
Hypophysectomy
Sublabial rhinoseptoplastic technique for transsphenoidal pituitary surgery by a hinged-septum method. Technical note, 867
Hypopituitarism
Transsphenoidal microsurgery in the management of craniopharyngioma, 661
Hypotension
The critical importance of $PaCO_2$ during intracranial aneurysm surgery. Case report, 426
The role of the sympathetic nervous system in pressor responses induced by spinal injury, 473
Hypothalamus
A clinicopathological study of patients following a subarachnoid hemorrhage, 295

Iliacus hematoma
The anatomical basis for femoral nerve palsy following iliacus hematoma, 533
Immunochemical diagnosis
Levels of astroprotein (an astrocyte-specific cerebroprotein) in cerebrospinal fluid of patients with brain tumors. An attempt at immunochemical diagnosis of gliomas, 229
Immunofluorescence
Failure to detect papovavirus-associated T antigens in human brain tumor cells by anticomplement immunofluorescence, 367
Immunological tolerance
An evaluation of nerve repair with nerve allografts in normal and immunologically tolerant rats, 557
Infancy
Cystic meningioma in a 10-month-old infant. Case report, 829
Infantile hemiplegia
Cranial asymmetry secondary to unilateral hemispheric damage during late childhood. Case report, 423
Infection
Susceptibility of brain and skin to bacterial challenge, 772
Symptomatic cerebral histoplasmoma. Case report, 273
Interferometry
Holographic interferometry applied to the study of the human skull, 825
Interhemispheric cyst
Interhemispheric cyst of neuroepithelial origin in association with partial agenesis of the corpus callosum. Case report and review of the literature, 399
Internal carotid artery
Atheromatous pseudo-occlusion of the internal carotid artery, 782
Intervertebral disc
Calcified herniated thoracic disc diagnosed by computerized tomography. Case report, 722
Intervertebral disc surgery. Strategies for patient selection to improve surgical outcome, 818
A modified drill guide for the anterior cervical fusion (Cloward) procedure. Technical note, 284

Intervertebral disc herniation
Absence of limitation of straight leg raising in proved lumbar disc lesion. Case report, 852
Intracerebral hematoma
Development of a computerized microstereotaxic method for the localization and removal of minute CNS lesions under direct 3-D vision. Technical report, 21
Intracerebral hemorrhage
Cystic cerebral cavernous angioma with dense calcification. Case report, 259
Intracranial aneurysm
Traumatic intracranial aneurysms, 11
Intracranial pressure
A dynamic pressure study of spontaneous CSF rhinorrhea in the empty sella syndrome. Case report, 103
Experimental brain injury in the dog. The pharmacological effects of pentobarbital and sodium nitroprusside, 189
The intracranial pressure in infants, 693
Local cerebral blood volume in head-injured patients. Determination by emission computed tomography of ^{99m}Tc-labeled red cells, 309
Neurogenic pulmonary edema associated with a colloid cyst in the third ventricle. Case report, 395
Servo-controlled lumbar infusions in children. A quantitative approach to the problem of arrested hydrocephalus, 87
Intramedullary metastasis
Intramedullary spinal cord metastasis associated with pencil-shaped softening of the spinal cord. Case report, 718
Ischemia
Atheromatous pseudo-occlusion of the internal carotid artery, 782
Comparison of hydrogen clearance and ^{14}C-antipyrine autoradiography in the measurement of spinal cord blood flow after severe impact injury, 801
Direct percutaneous cerebral angiography in neurosurgical practice, 525
Regional cortical metabolism in focal ischemia, 755
Relationship of cerebral blood flow to cardiac output, mean arterial pressure, blood volume, and alpha and beta blockade in cats, 745

K^+ release
Cortical cellular response in acute subarachnoid hemorrhage, 456

Laminectomy
Spinal cord energy metabolism in normal and postlaminectomy cats, 387
Spinal epidural neoplasia. A 15-year review of the results of surgical therapy, 47
Spinal neurological complications of achondroplasia. Results of surgical treatment, 463
Lasegue's sign
Absence of limitation of straight leg raising in proved lumbar disc lesion. Case report, 852
Lathyrism
Experimental intracranial aneurysms in rats. A gross and microscopic study, 494
Letterer-Siwe syndrome
Focal histiocytosis X of the parietal lobe. Case report, 431
Ligamentum flavum
Cervical radiculomyelopathy caused by deposition of calcium pyrophosphate dihydrate crystal in the ligamenta flava. Case report, 279
Lipogranuloma
Systemic Weber-Christian disease presenting as an intracranial mass lesion. Case report, 134
Lipoma
Histological features of congenital lipomas of the lower spinal canal, 564
Intracranial lipoma. Diagnostic and therapeutic considerations, 234
Lymph node
Cerebellar astrocytoma invading the musculature and soft tissues of the neck. Case report, 414

Magnetic occlusion
Stereotaxic occlusion of 22 consecutive anterior communicating artery aneurysms, 790
Maxillary artery
Experimental model for maxillary artery to middle cerebral artery anastomosis in dogs. Technical note, 591
Meningioma
Cystic meningioma in a 10-month-old infant. Case report, 829
Extradural spinal meningioma arising from a nerve root. Case report, 728
Thorotrast-induced meningioma. Case report, 834
Meningitis
Compartmentalization of the cerebral ventricles as a sequela of neonatal meningitis, 547
Recurrent chemical meningitis due to an intraspinal cystic teratoma. Case report, 715
Tuberculoma of the anterior optic pathways. Case report, 129
Meningomyelocele
Histological features of congenital lipomas of the lower spinal canal, 564
Metabolism
Regional cortical metabolism in focal ischemia, 755
Spinal cord energy metabolism in normal and postlaminectomy cats, 387
Metabolite
Homovanillic acid and 5-hydroxyindoleacetic acid in the ventricular CSF of comatose patients with obstructive hydrocephalus, 635
Regional cortical metabolism in focal ischemia, 755
Metrizamide
Diagnosis of empty sella syndrome. Letters, 874
Diagnosis of empty sella syndrome using Amipaque cisternography combined with computerized tomography, 99
Micrococcus sedentarius
Cerebral cyst infection with *Micrococcus sedentarius*. Case report, 126
Microsurgical irrigating sucker
Irrigating sucker dissector. Technical note, 736
Microsurgical technique
The language of neurorrhaphy. Letter, 143
Middle cerebral artery
Experimental model for maxillary artery to middle cerebral artery anastomosis in dogs. Technical note, 591
Motorcycle injury
Motorcycle injuries. Letter, 143
Mucormycosis
Mucormycosis presenting as positional nystagmus and hydrocephalus. Case report, 270
Myelography
Intracranial subdural hematoma following lumbar myelography. Case report, 256
Osteochondroma with spinal cord compression. Report of three cases, 842
Myocardial blood flow
Studies of experimental cervical spinal cord transection. Part IV: Effects of cervical spinal cord transection on myocardial blood flow in anesthetized dogs, 197
Myocardium
A clinicopathological study of patients following a subarachnoid hemorrhage, 295

Index

Neonatal intracranial hemorrhage
The intracranial pressure in infants, 693
Neonatal meningitis
Compartmentalization of the cerebral ventricles as a sequela of neonatal meningitis, 547
Nerve compression
The anatomical basis for femoral nerve palsy following iliacus hematoma, 533
Nerve fascicle
Topical organization of the distal portion of the facial nerve, 671
Nerve repair
An evaluation of nerve repair with nerve allografts in normal and immunologically tolerant rats, 557
The language of neurorrhaphy. Letter, 143
Nerve root
Extradural spinal meningioma arising from a nerve root. Case report, 728
Nerve root compression
Absence of limitation of straight leg raising in proved lumbar disc lesion. Case report, 852
Neural conduction
Use of cerebral evoked potentials to evaluate spinal somatosensory function in patients with traumatic and surgical myelopathies, 654
Neurilemmoma
Acoustic neurilemmoma. Clinicoanatomical study of 103 patients, 28
Neurinoma
Translabyrinthine and transtentorial removal of acoustic nerve tumors. Results in 150 cases, 210
Neuritis
Aberrant regeneration in idiopathic oculomotor nerve palsy. Case report, 854
Neurofibroma
Tapia's syndrome caused by a neurofibroma of the hypoglossal and vagus nerves. Case report, 730
Neurorrhaphy
The language of neurorrhaphy. Letter, 143
Neurosurgical education
The foundation of excellence is knowledge: the role of self-assessment programs in continuing education. Letter, 289
Nitroprusside
Experimental brain injury in the dog. The pharmacological effects of pentobarbital and sodium nitroprusside, 189
Noradrenalin
Noradrenalin, serotonin, and the dorsal horn, 674
Norepinephrine
The response of feline spinal pial arterioles to norepinephrine, 60

Oculomotor palsy
Aberrant regeneration in idiopathic oculomotor nerve palsy. Case report, 854
Ommaya reservoir
Management of the unresectable cystic craniopharyngioma by aspiration through an Ommaya reservoir drainage system, 36
Operative risk
Quadriparesis after craniectomy in sitting position. Letter, 874
Ophthalmoplegia
Giant cell granuloma involving the pituitary gland. Case report, 584
Internuclear ophthalmoplegia following head injury. Letters, 438
Optic nerve
Tuberculoma of the anterior optic pathways. Case report, 129
Osteochondroma
Osteochondroma with spinal cord compression. Report of three cases, 842

Pachymeningitis
Recent diagnostic experience with subdural empyema, 764
Pain
Intervertebral disc surgery. Strategies for patient selection to improve surgical outcome, 818
Noradrenalin, serotonin, and the dorsal horn, 674
Pain reduction in amputees by long-term spinal cord stimulation. Long-term follow-up study over 5 years, 346
Retrospective analysis of 22 patients with chronic pain treated by peripheral nerve stimulation, 482
Thalamic stimulation for neuropathic pain, 486
Panniculitis
Systemic Weber-Christian disease presenting as an intracranial mass lesion. Case report, 134
Papilloma
Malignant choroid plexus papilloma with extraneural metastasis. Case report, 251
Papovavirus
Failure to detect papovavirus-associated T antigens in human brain tumor cells by anticomplement immunofluorescence, 367
Paraplegia
Ineffectiveness of enzyme therapy on regeneration in the transected spinal cord of the rat, 73
Isodense subdural hematoma presenting with paraparesis.Case report, 712
Use of cerebral evoked potentials to evaluate spinal somatosensory function in patients with traumatic and surgical myelopathies, 654
Parasite
Sparganosis of the brain. Case report, 588
Parasympathetic nervous system
Cardiac arrhythmias accompanying acute compression of the spinal cord, 52
Parietal lobe
Focal histiocytosis X of the parietal lobe. Case report, 431
Pediatric neurosurgery
The intracranial pressure in infants, 693
Pentobarbital
Experimental brain injury in the dog. The pharmacological effects of pentobarbital and sodium nitroprusside, 189
Persistent trigeminal artery
Bilateral cortical blindness associated with carotid stenosis in a patient with a persistent trigeminal artery. Case report, 709
Personality characteristics
Intervertebral disc surgery. Strategies for patient selection to improve surgical outcome, 818
Phantom limb
Pain reduction in amputees by long-term spinal cord stimulation. Long-term follow-up study over 5 years, 346
Phenobarbital
The effect of phenobarbital on the toxicity and tumoricidal activity of CCNU in a murine brain tumor model, 359
Phenytoin therapy
Posttraumatic epilepsy: phenytoin prophylaxis. Letters, 291
Phosphate compounds
Regional cortical metabolism in focal ischemia, 755
Pituitary capsule
Anatomical observations of the development of the pituitary capsule, 667
Pituitary tumor
Giant cell granuloma involving the pituitary gland. Case report, 584
Implications of very high serum prolactin levels associated with pituitary tumors, 226
Indications for angiography in the preoperative evaluation of patients with prolactin-secreting pituitary adenomas, 378
Sublabial rhinoseptoplastic technique for transsphenoidal pituitary surgery by a hinged-septum method. Technical note, 867
Transsphenoidal microsurgery in the management of craniopharyngioma, 661

Plasmacytoma
Plasmacytoma of the clivus presenting with an unusual combination of symptoms. Case report, 857
Positional nystagmus
Mucormycosis presenting as positional nystagmus and hydrocephalus. Case report, 270
Posterior communicating artery
Surgery of posterior communicating artery aneurysms that enlarge after common carotid ligation. Report of two cases, 116
Posterior fossa
Acute intracranial hypertension and auditory brain-stem responses. Part 3: The effects of posterior fossa mass lesions on brain-stem function, 351
Prolactin
Implications of very high serum prolactin levels associated with pituitary tumors, 226
Indications for angiography in the preoperative evaluation of patients with prolactin-secreting pituitary adenomas, 378
Pseudomeningocele
Parenchymal cerebrospinal fluid extravasation as a complication of computerized tomography. Case report, 113
Pulmonary artery
Migration of subdural atrial shunt catheter into the pulmonary arteries. Case report, 106
Pulmonary edema
Neurogenic pulmonary edema associated with a colloid cyst in the third ventricle. Case report, 395
Pulmonary shunt
Pulmonary shunt as a prognostic indicator in head injury. Letters, 436

Radiation-induced tumor
Spinal cord glioma after multiple fluoroscopies during artificial pneumothorax treatment of pulmonary tuberculosis. Case report, 838
Thorotrast-induced meningioma. Case report, 834
Radiographic technique
Direct percutaneous cerebral angiography in neurosurgical practice, 525
Radioimmunoassay
Levels of astroprotein (an astrocyte-specific cerebroprotein) in cerebrospinal fluid of patients with brain tumors. An attempt at immunochemical diagnosis of gliomas, 229
Radioisotope scanning
Local cerebral blood volume in head-injured patients. Determination by emission computed tomography of ^{99m}Tc-labeled red cells, 309
Radiotherapy
Spinal epidural neoplasia. A 15-year review of the results of surgical therapy, 47
Rathke's pouch
Anatomical observations of the development of the pituitary capsule, 667
Regeneration
Aberrant regeneration in idiopathic oculomotor nerve palsy. Case report, 854
Renal failure
Acute renal failure following cerebral angiography and infusion computerized tomography. Case report, 111
Respiratory rate
Responses to experimental subarachnoid hemorrhage in the spontaneously breathing primate, 302
Rhinorrhea
A dynamic pressure study of spontaneous CSF rhinorrhea in the empty sella syndrome. Case report, 103

S. aureus
Susceptibility of brain and skin to bacterial challenge, 772

Sella turcica
Sublabial rhinoseptoplastic technique for transsphenoidal pituitary surgery by a hinged-septum method. Technical note, 867
Septum pellucidum
Fifth ventricle with bitemporal hemianopsia. Case report, 276
Serotonin
Noradrenalin, serotonin, and the dorsal horn, 674
Shunt
Cerebrospinal fluid antibiotic levels during treatment of shunt infections, 41
A dynamic pressure study of spontaneous CSF rhinorrhea in the empty sella syndrome. Case report, 103
Experimental syringomyelia. The relationship between intraventricular and intrasyrinx pressures, 812
Idiopathic normal-pressure hydrocephalus. Results of shunting in 62 patients, 371
Migration of subdural atrial shunt catheter into the pulmonary arteries. Case report, 106
Servo-controlled lumbar infusions in children. A quantitative approach to the problem of arrested hydrocephalus, 87
Shunt catheter impacted in the vena cava. Case report, 109
Thermosensitive determination of CSF shunt patency with a pair of small disc thermistors, 700
Shunt complication
Knotted ventriculoatrial catheter. Case report, 407
Migration of subdural atrial shunt catheter into the pulmonary arteries. Case report, 106
Shunt catheter impacted in the vena cava. Case report, 109
Shunt infection
Cerebral cyst infection with *Micrococcus sedentarius*. Case report, 126
Cerebrospinal fluid antibiotic levels during treatment of shunt infections, 41
Diphtheroid infections of cerebrospinal fluid shunts. The changing pattern of shunt infection in Cleveland, 553
Sinus thrombosis
Disseminated intravascular coagulation following cranial trauma. Case report, 266
Skull strain measurements
Holographic interferometry applied to the study of the human skull, 825
Somatosensory cortex
Use of cerebral evoked potentials to evaluate spinal somatosensory function in patients with traumatic and surgical myelopathies, 654
Sparganum mansoni
Sparganosis of the brain. Case report, 588
Spina bifida
Histological features of congenital lipomas of the lower spinal canal, 564
Spinal arterioles
The response of feline spinal pial arterioles to norepinephrine, 60
Spinal canal
Villonodular synovitis in the spinal canal. Case report, 846
Spinal cord
Experimental syringomyelia. The relationship between intraventricular and intrasyrinx pressures, 812
Histological features of congenital lipomas of the lower spinal canal, 564
Noradrenalin, serotonin, and the dorsal horn, 674
Spinal cord energy metabolism in normal and postlaminectomy cats, 387
Use of cerebral evoked potentials to evaluate spinal somatosensory function in patients with traumatic and surgical myelopathies, 654
Spinal cord circulation
Comparison of hydrogen clearance and ^{14}C-antipyrine autoradiography in the measurement of spinal cord blood flow after severe impact injury, 801
Edema and circulatory disturbance in the spinal cord compressed by epidural neoplasms in rabbits, 203

Spinal cord blood flow in experimental transient traumatic paraplegia, 335
Spinal cord compression
Acute spinal cord compression by subarachnoid and subdural hematoma occurring in association with brachial plexus avulsion. Case report, 410
Cardiac arrhythmias accompanying acute compression of the spinal cord, 52
Extradural spinal meningioma arising from a nerve root. Case report, 728
Neurosurgical treatment of pathological fracture-dislocation of the spine, 330
Osteochondroma with spinal cord compression. Report of three cases, 842
Spinal epidural neoplasia. A 15-year review of the results of surgical therapy, 47
Spinal cord injury
Comparison of hydrogen clearance and ^{14}C-antipyrine autoradiography in the measurement of spinal cord blood flow after severe impact injury, 801
Ineffectiveness of enzyme therapy on regeneration in the transected spinal cord of the rat, 73
Recovery of vasomotor response in human spinal cord transection, 808
The role of the sympathetic nervous system in pressor responses induced by spinal injury, 473
Spinal cord blood flow in experimental transient traumatic paraplegia, 335
Studies of experimental cervical spinal cord transection. Part IV: Effects of cervical spinal cord transection on myocardial blood flow in anesthetized dogs, 197
Spinal cord tumor
Edema and circulatory disturbance in the spinal cord compressed by epidural neoplasms in rabbits, 203
Extradural spinal meningioma arising from a nerve root. Case report, 728
Intramedullary spinal cord metastasis associated with pencil-shaped softening of the spinal cord. Case report, 718
Recurrent chemical meningitis due to an intraspinal cystic teratoma. Case report, 715
Spinal cord glioma after multiple fluoroscopies during artificial pneumothorax treatment of pulmonary tuberculosis. Case report, 838
Spinal epidural neoplasia. A 15-year review of the results of surgical therapy, 47
Spinal fracture
Neurosurgical treatment of pathological fracture-dislocation of the spine, 330
Spinal puncture
Lumbosacral meningismus complicating subdural injection of "blood patch." Case report, 849
Spinal roots
Anatomy of spinal roots. Letter, 438
Spinal stenosis
Spinal neurological complications of achondroplasia. Results of surgical treatment, 463
Stenosis and cervical myelopathy. Letters, 290
Spinal tumor
Osteochondroma with spinal cord compression. Report of three cases, 842
Spine injury
Traumatic dislocation of the atlanto-occipital articulation (AOA) with short-term survival. With a radiographic method of measuring the AOA, 541
Spondylosis
Stenosis and cervical myelopathy. Letters, 290
STA-MCA anastomosis
Fatal subdural bleeding following superficial temporal-middle cerebral artery anastomosis. Case report, 392
Treatment of intracavernous and giant carotid aneurysms by combined internal carotid ligation and extra- to intracranial bypass, 1
Stereotaxic technique
Development of a computerized microstereotaxic method for the localization and removal of minute CNS lesions under direct 3-D vision. Technical report, 21
Stereotaxic computerized tomography with a GE 8800 scanner, 794
Stereotaxic occlusion of 22 consecutive anterior communicating artery aneurysms, 790
Stimulation
Cerebellar stimulation for cerebral palsy, 648
Chronic cerebellar stimulation. Letters, 603
Pain reduction in amputees by long-term spinal cord stimulation. Long-term follow-up study over 5 years, 346
Retrospective analysis of 22 patients with chronic pain treated by peripheral nerve stimulation, 482
Thalamic stimulation for neuropathic pain, 486
Topical organization of the distal portion of the facial nerve, 671
Straight leg raising
Absence of limitation of straight leg raising in proved lumbar disc lesion. Case report, 852
Subarachnoid blood
Lumbosacral meningismus complicating subdural injection of "blood patch." Case report, 849
Subarachnoid hemorrhage
Cerebral vasospasm following aneurysm rupture. A protocol for therapy and prophylaxis, 149
A clinicopathological study of patients following a subarachnoid hemorrhage, 295
Cortical cellular response in acute subarachnoid hemorrhage, 456
Familial intracranial aneurysms. Six cases among 13 siblings, 501
Intermittent appearance of a ruptured cerebral aneurysm on sequential angiograms. Case report, 263
Preoperative treatment of ruptured intracranial aneurysms with tranexamic acid and monitoring of fibrinolytic activity, 453
Responses to experimental subarachnoid hemorrhage in the spontaneously breathing primate, 302
Surgery of posterior communicating artery aneurysms that enlarge after common carotid ligation. Report of two cases, 116
Subdural empyema
Recent diagnostic experience with subdural empyema, 764
Subdural hematoma
Acute spinal cord compression by subarachnoid and subdural hematoma occurring in association with brachial plexus avulsion. Case report, 410
Fatal subdural bleeding following superficial temporal-middle cerebral artery anastomosis. Case report, 392
Intracranial subdural hematoma following lumbar myelography. Case report, 256
Isodense subdural hematoma presenting with paraparesis. Case report, 712
Local cerebral blood volume in head-injured patients. Determination by emission computed tomography of ^{99m}Tc-labeled red cells, 309
The role of craniectomy in the treatment of chronic subdural hematomas, 776
Subdural hygroma
Migration of subdural atrial shunt catheter into the pulmonary arteries. Case report, 106
Subdural tap
Cerebral convexity epidermoid tumor subsequent to multiple percutaneous subdural aspirations. Case report, 574
Suction apparatus
Irrigating sucker dissector. Technical note, 736
Superior cerebellar artery
Microvascular relations of the trigeminal nerve. An anatomical study with clinical correlation, 381
Superior vena cava
Shunt catheter impacted in the vena cava. Case report, 109

Supratentorial tumor
Supratentorial hemangioblastoma in a child. Case report, 578
Sympathectomy
The role of the sympathetic nervous system in pressor responses induced by spinal injury, 473
Sympathetic nervous system
Cardiac arrhythmias accompanying acute compression of the spinal cord, 52
A clinicopathological study of patients following a subarachnoid hemorrhage, 295
The response of feline spinal pial arterioles to norepinephrine, 60
The role of the sympathetic nervous system in pressor responses induced by spinal injury, 473
Synovitis
Villonodular synovitis in the spinal canal. Case report, 846
Syringomyelia
Experimental syringomyelia. The relationship between intraventricular and intrasyrinx pressures, 812

Tapia's syndrome
Tapia's syndrome caused by a neurofibroma of the hypoglossal and vagus nerves. Case report, 730
Temporal bone
Translabyrinthine and transtentorial removal of acoustic nerve tumors. Results in 150 cases, 210
Teratoma
Intracranial lipoma. Diagnostic and therapeutic considerations, 234
Recurrent chemical meningitis due to an intraspinal cystic teratoma. Case report, 715
Thalamus
Thalamic stimulation for neuropathic pain, 486
Thermistor
Thermosensitive determination of CSF shunt patency with a pair of small disc thermistors, 700
Thoracic disc
Calcified herniated thoracic disc diagnosed by computerized tomography. Case report, 722
Thorium dioxide
Thorotrast-induced meningioma. Case report, 834
Three-dimensional reconstruction
Development of a computerized microstereotaxic method for the localization and removal of minute CNS lesions under direct 3-D vision. Technical report, 21
Thrombin
Control of bone bleeding during Cloward procedure. Technical note, 138
Control of bone bleeding. Letters, 604
Thrombosis
Atheromatous pseudo-occlusion of the internal carotid artery, 782
Tomography
Local cerebral blood volume in head-injured patients. Determination by emission computed tomography of ^{99m}Tc-labeled red cells, 309
Osteochondroma with spinal cord compression. Report of three cases, 842
Tranexamic acid
Preoperative treatment of ruptured intracranial aneurysms with tranexamic acid and monitoring of fibrinolytic activity, 453
Transient paraplegia
Spinal cord blood flow in experimental transient traumatic paraplegia, 335
Transplantation
An evaluation of nerve repair with nerve allografts in normal and immunologically tolerant rats, 557
Transsphenoidal surgery
Sublabial rhinoseptoplastic technique for transsphenoidal pituitary surgery by a hinged-septum method. Technical note, 867
Transsphenoidal microsurgery in the management of craniopharyngioma, 661
Transtentorial herniation
Acute intracranial hypertension and auditory brain-stem responses. Part 3: The effects of posterior fossa mass lesions on brain-stem function, 351
Traumatic aneurysm
Traumatic intracranial aneurysms, 11
Traumatic intracranial aneurysms. Letter, 875
Trigeminal nerve
Microvascular relations of the trigeminal nerve. An anatomical study with clinical correlation, 381
Trigeminal neuralgia
Microvascular relations of the trigeminal nerve. An anatomical study with clinical correlation, 381
Some examples of balloon technology in neurosurgery, 321
Tuberculoma
Tuberculoma of the anterior optic pathways. Case report, 129
Tuberculosis
Spinal cord glioma after multiple fluoroscopies during artificial pneumothorax treatment of pulmonary tuberculosis. Case report, 838
Tuberculous brain abscess. Case report, 419
Tumor biopsy
Stereotaxic computerized tomography with a GE 8800 scanner, 794
Tumor localization
A simple, inexpensive technique for accurate mass localization by computerized tomography. Technical note, 733
Twist drill
Drill stop for twist drill. Technical note, 599

Vagus nerve
Plasmacytoma of the clivus presenting with an unusual combination of symptoms. Case report, 857
Tapia's syndrome caused by a neurofibroma of the hypoglossal and vagus nerves. Case report, 730
Vascular necrosis
Fatal subdural bleeding following superficial temporal-middle cerebral artery anastomosis. Case report, 392
Vasomotor response
Recovery of vasomotor response in human spinal cord transection, 808
Vasospasm
Cerebral vasospasm following aneurysm rupture. A protocol for therapy and prophylaxis, 149
Responses to experimental subarachnoid hemorrhage in the spontaneously breathing primate, 302
Venostomy
Knotted ventriculoatrial catheter. Case report, 407
Ventricle
Compartmentalization of the cerebral ventricles as a sequela of neonatal meningitis, 547
Malignant choroid plexus papilloma with extraneural metastasis. Case report, 251
Vertebral joint
Villonodular synovitis in the spinal canal. Case report, 846
Vestibulospinal tract
Ineffectiveness of enzyme therapy on regeneration in the transected spinal cord of the rat, 73

Weber-Christian disease
Systemic Weber-Christian disease presenting as an intracranial mass lesion. Case report, 134
